

# DAY AT THE GARDENS

The sun was shining and it wasn't raining and people were out early walking around the stalls before 9am at the Benalla gardens. Well done to Craig for organising the displays and gear. Thank You to everyone who helped out during the day as usual there were many hands to help. The club received lots of interest from the public, and I believe, possibly a couple of new members. The displays were interesting and people always love seeing the photos that are displayed on

the day and the static winching demo was great. The camper trailer attracted a few people and I must say it did have everything that opens and shuts.
