

Cobbler Hut Working Bee. 27 Sept

On a recent trip to Lake Cobbler it was noticed the hut was looking a bit untidy & could do with a little maintenance so we're squeezing in a working bee later this month on Sunday 27th Sept.

For those that would like to come up early, a few will be camping Saturday night with the intention to head home via Abbeyard Track on Sunday arvo. (Easy drive)

Bring sturdy footwear, gloves, safety glasses, ear muffs plus some meat for the Sunday BBQ otherwise all the required materials & tools will be supplied. There's not a huge amount of work to do, more of tidy up & an excuse for a social drive, camp & walk to the falls.

Let Craig know when you're available & we'll work out the departure times. 0428538478
Will need some assistance to cart the BBQ, table & tools up for anyone with space.

The original hut being constructed by the club in the late 80's.
